

Is Unit 4 considering purchasing Judah Christian? If so, what is the cost and has that been factored in the Central plans?

I think an expansion of South Side as a 3- or 4-strand school should be considered alongside relocating the administration building. It is dated and cramped and I'd imagine will need updating soon. Could administration/FIC be consolidated somewhere?

The Central Town Hall was a great idea, and we appreciated school board members and architects being available for questions. :)
