

Dear Jubal,

Thanks for reaching out to us with your appreciation, and with your views about the future location of Central. We will be sure to forward your message to the Tier Two committee.

The Tier Two committee is looking forward to working with the architects and construction management team to put some dollar numbers to the various options for remodeling and/or rebuilding our Unit 4 high schools. We believe that this information will help not only the committee, but also the Board and eventually the community, make more informed decisions and agree on a course of action.

Please continue to stay involved in the process!

Best wishes,
Kathy R.
